GREEN AI DIGITAL PLATFORM

The Promising Future for Youth and Women in
Agribusinesses

OUR COMPANY

Flying Dream is a limited company providing business development services to new entrants in the labour market, smallholder farmers and entrepreneurs.

Our services aim at supporting the groups of youths and women to work effectively in the informal or private sector, especially in agriculture and micro-enterprises. Our work contributes to achieving the Sustainable development Goals (SDG) 1, 2, 4 and 8.

OUR SERVICES

1

SKILLS DEVELOPMENT

We provide training on Entrepreneurship and Business to farmers and other entrepreneurs. We implement Models/ Manuals such as OYE, GET AHEAD, YSLA/ VSLA, PECB Trainings, ICRA Agribusiness Models and the like

2

ORGANIZATIONAL DEVELOPMENT SERVICE

Enabling the Groups, Associations & Enterprises to formalise their entities, make plans strategies, and assist in operationalising their businesses' management systems.

3

FACILITATE THE TRADE & MARKET SYSTEMS DEVELOPMENT

Brokering and building business relationships among different actors in ecosystems, such as agricultural value chain actors.

4

LEVERAGING TECHNOLOGIES TO TRANSFORM AGRICULTURE

We design, engineer and develop technologies that can facilitate the service provision. For instance, our Green AI innovation powered by artificial intelligence exponentially improves BDS, creating potential interaction and linkages and access to reliable horticultural information.

5

OTHER CONSULTANCY SERVICES

Our company offers other services, including supplies equipment through tenders and contracts of project implementation related to agriculture and enterprises.
